1 Introduction

1.1 intro1

1.2 intro2

1.3 intro3

2 On structure of genomes

2.1 Introduction

2.2 Results and Discussion

2.3 Material and methods

3 Adaptation in genes, duplicated (and families)

3.1 Introduction

3.2 Results and Discussion

3.3 Material and methods

4 Gene set Selection analysis

4.1 Introduction

4.2 Results and Discussion

4.3 Material and methods

4.3.1 Dataset

5 mammals

6 Drosophila

5 Genome neutrality

5.1 Introduction

5.2 Results and Discussion

5.3 Material and methods

5.4 open on colocalization \rightarrow *notrandom*

6 Tools, programs, methods

6.1 ETE-evol plugin

6.2 Phylemon

6.3 Ecolopy

6.4 Isoform selection?

7 Conclusions

[Kosiol *et al.*2008]
